

**SAFE WATER
INTERNATIONAL
MINISTRIES**

January 2023

Happy New Year!

We want to take this moment to let you know how grateful we are for your support. You have helped us bring joy and love to many people, who for the most part, have been forgotten by the rest of the world...but not by God...and not by us.

By His grace, we are looking forward to those we will be able to help in the new year. There is a world of opportunities ahead of us and we invite you to be a part of the transformation of lives that happens when chlorine producing units (CPUs) are introduced to communities. These CPUs help to decrease waterborne diseases and improve people's lives with clean, safe water.

And most important of all, we can share about the Living Water, Jesus, as their Savior. There is no better life-changing decision to make. It is our privilege to share the Gospel with others and we can do that as we share CPUs with people.

*"Learn to light a candle in the darkest moments of someone's life.
Be the light that helps others see; it is what gives life its deepest significance."
Roy T. Bennet*

SWIM is doing its best to give hope to people. Will you join us?

Will you help us make 2023 different as we share life-giving direction to people who need to hear God's Word and show them how to create safe water?

The ripple effect of love and kindness is powerful! Your gift of any size is significant and treasured. God uses each one to make an impact.

Here are some examples of how your support has made a difference in the lives of these people.

"This was the day God had a purpose with us. The community called Ongaroi received the Good News from the Lord and from SWIM. This is a community where people are in total darkness concerning the things of God and His Word. When they see anything good, they think it's from the devil, from a bad spirit, not from God. But today the Spirit of the Lord gave us the wisdom to differentiate between God and the devil, after the teachings and sharing with them, we realized their minds were drawn to the truth.

Everybody became excited to see that they can now access the chlorine in a very unique way. Typhoid is the major waterborne disease among them. SWIM is the most important and touching ministry that is for both spiritual and physical affairs of the saints today and the coming generation!

Prayers are still needed in Jesus' Name!" – Morrice Okiring (Kenya)

"This family has struggled a lot. The Lord provided a gift to the whole community through Pastor Apa. The community of Nambo in Uganda has been given the solution to their water problem." – Juma Bwire (Uganda)

"Community health hygiene outreach – With cholera cases on the rise in the area, our team, together with the Mitundu hospital nurses, shared information about health and hygiene. During these talks we also provided chlorine for water purification." – Moses Njobvu (Malawi)

THANK YOU!

Thank you for being such a good friend to SWIM! Your support allows us to reach even more people who desperately need to hear the Good News of Jesus and be provided with a CPU for their village.

*If you choose to support us by sending a check, please mail it to:
SWIM, PO Box 227, New Sharon, IA 50207*

If you'd like to make your gift online, visit: <http://swimforhim.org/donations/>.

We wish you God's special blessings for 2023!

*Earl Ratcliff
SWIM Chairman of the Board*
